BEFORE THE BOARD  
OF OIL, GAS  
AND MINING  
DEPARTMENT OF  
NATURAL RESOURCES  
in and for the  
STATE OF UTAH  
IN THE MATTER OF  
THE APPROVAL OF  
THE NOTICE OF IN-  
TENT AND RE-  
CLAMATION PLAN  
SUBMITTED BY MIDCO  
INC., HORNET AND  
SHE MINE, JUAB  
COUNTY, UTAH.

ORDER TO SHOW  
CAUSE

NO. ACT-023-005

THE STATE OF UTAH  
TO ALL OPERATORS,  
TAKERS OF  
PRODUCTION, MIN-  
ERAL AND ROY-  
ALTY OWNERS,  
AND PARTICULARLY  
ALL PERSONS IN-  
TERESTED IN  
TOWNSHIP 12 SOUTH,  
RANGE 18 WEST, SLBM,  
JUAB COUNTY, UTAH.

Notice is hereby given  
that tentative approval  
was given to Midco Inc.  
by the Utah Division of  
Oil, Gas and Mining, to  
commence surface  
tungsten mining on  
portions of Section 28,  
Township 12 South, Range  
18 West, Juab County,  
Utah. The name of the  
mine is the Hornet and  
She Mine, and the person  
representing the com-  
pany in this matter is Mr.  
Kenneth D. Westwood,  
Midco Inc., P.O. Box 1448,  
Provo, Utah, 84601.

Midco Inc. has fulfilled  
obligations under the  
Mined Land Reclamation  
Act of 1975 (Section 40-8,  
U.C.A., 1953, as amen-  
ded) and will employ the  
following mining and  
reclamation techniques  
on 20 acres which will  
comprise the land af-  
fected. Legal access to  
the land affected is by  
unpatented mining  
claims.

MINING AND

RECLAMATION PLAN:

1. Mining will be con-  
ducted in a safe, orderly,  
and minerlike fashion.  
2. Surface trenching  
will be done with a track-  
mounted backhoe. Trenches  
will be dug 20 feet wide  
by 50 feet long by 7 feet  
deep in a series. The top  
three-four feet of overburden  
will be stockpiled alongside  
the trench.

3. After removal of four

feet of ore from the  
trench, the three-four feet  
of overburden will be  
returned to the trench.

4. The present land  
contour is a side hill  
sloped at 15 to 30 degrees.  
The trenching will occur  
on approximately 15  
acres of previously  
disturbed land containing  
trenching and drill roads.  
Approximately five acres  
of undisturbed land will  
be disturbed. Topsoil  
from this five acres will  
be conserved for later use  
in revegetation.

5. After operations,  
extraneous debris, scrap  
metal and wood, will be  
removed from the surface  
of the site.

6. Upon completion of  
the cut and fill trenching  
operation, the area will  
have achieved the final  
postmining land con-  
figuration. The area will  
then be prepared,  
revegetated and  
monitored until 70 per-  
cent of the 15 percent  
vegetative cover is  
achieved. When a  
vegetative cover of 10.5  
percent has been met, the  
bond will be released, in  
accordance with Rule M-  
10 (12).

Reclamation per-  
formance surety will be  
posted prior to final  
approval of the plan.

Any person or agency  
aggrieved by this ten-  
tative decision is hereby  
requested to submit  
written protest within 30  
days from October 9, 1980,  
to the Division of Oil, Gas  
and Mining, 1588 West  
North Temple, Salt Lake  
City, Utah, 84116, setting  
forth factual reasons for  
his or her complaint, and  
thereafter, at a time and  
place heretobe  
established, appear  
before the Board of Oil,  
Gas and Mining, to show  
cause, if any there be,  
why this plan should not  
be approved.
